Navy anchors every character. Each accent color signals a role: **Gold**=leader/trade (Touri, Bao) · **Orange**=exploration (Mira) · **AR Blue**=technology (Lens) · **Forest Green**=local roots (Zola).

### Silhouette anchor

One bold headpiece each: Touri = compass · Mira = bucket hat · Lens = AR goggles · Bao = captain's cap · Zola = tree canopy.

### One hero object

Each carries one signature object tied to their job — map, crate, AR panel, compass, trust-medallion.

### Simple faces

Small dark eyes + a soft smile. Minimal detail keeps them sticker-friendly and warm.

### The "g" mark

The gold Touri orb appears on every character (badge, cap, medallion) to tie them to the brand.

### Chunky proportions

Big head, small body, sturdy navy boots. Rounded and huggable — never sharp.

### Soft hand-drawn line

Slightly sketchy pencil edges with grainy texture — never hard flat vector lines.
